General Information

This years Munich International Autumn School will offer a limited number of school training positions to clinicians or scientists with an MD or PhD background.

Please send your application including a standard CV with a list of publications and a motivation letter (1/2 page) until August, 15 2013 to info@atemweg-stiftung.de. The applications will be reviewed by the MIAS organizing committee. Successful applicants will be notified about the decision in due time prior to the conference via email.

All costs for the MIAS including travel and accommodation are covered by AtemWeg – The Lung Disease Research Foundation.

Munich International Autumn School 2013 for Respiratory Medicine

**From bench to
bedside and back**

**October, 7 – 11, 2013
Munich, Germany**

CPC

Comprehensive
Pneumology Center

Welcome to the Munich International Autumn School 2013 for Respiratory Medicine

We are pleased to welcome you to a special week with experimental-clinical training and lectures for international scientists and clinicians in respiratory medicine.

You will get the extraordinary possibility to take part in a five day training-session in rotation. You will be hosted by the Comprehensive Pneumology Center with its partners: the Helmholtz Zentrum München – German Research Center for Environmental Health, the Ludwig Maximilians University Munich with the University Hospital and the Asklepios Hospital Munich-Gauting.

At the Autumn School you will experience exclusive lectures and get the possibility to exchange with world-leading experts in experimental and clinical respiratory medicine, in a bench-to-bedside approach.

You are invited to shape this training course with vivid debates and discussions.

We trust that you will enjoy this week in our wonderful city of Munich!

For the organizing committee,

Prof. Dr. Oliver Eickelberg
Prof. Dr. Jürgen Behr
Dr. Dr. Melanie Königshoff

Program*

Monday 10 am to Friday 4 pm

Monday, October 7

Welcome & Introduction (10 am)
Clinical visits
Get together

Tuesday, October 8

Hands-on experimental training day

Wednesday, October 9

Clinical visits
Keynote lecture
Reception

Thursday, October 10

Hands-on experimental training day

Friday, October 11

Bronchoscopy training

* preliminary (July 2013)

Comprehensive Pneumology Center

At the Comprehensive Pneumology Center (CPC) experts from medicine and life sciences are working closely together to unravel the underlying mechanisms of chronic lung diseases, such as COPD (chronic obstructive pulmonary disease), lung fibrosis, lung cancer and asthma, seeking to develop new approaches for their prevention, diagnosis and therapy. For that, the CPC combines three strong partners: The Helmholtz Zentrum München, the Ludwig Maximilians University Munich with the University Hospital and the Asklepios Hospital in Munich-Gauting.

AtemWeg – The Lung Disease Research Foundation

The mission of the non-profit-organization AtemWeg – The Lung Disease Research Foundation is to raise public awareness about lung diseases and to financially support prevention as well as lung research, especially at the CPC. Celebrities from music, media, science and society support the foundation. The foundation was set up 2010 by Münchner Bank.

Research School „Lung Biology and Disease“

The Research School „Lung Biology and Disease“ is an international, interdisciplinary and thematically focused doctoral training program, established at the CPC in Munich. It is designed to attract and promote excellence in biomedical sciences related to respiratory medicine, by educating selected MD or PhD students from the basic and medical sciences by an internationally renowned faculty.
